**Subject:** RE: 2.5 Series certification files and 1.7 Waiver request

Hi Guillaume,

I am in receipt of your certification request. Upon reviewing the files, I noticed that the CBI test report is absent. I do see files pertaining to CBI but keep in mind, that EPA must receive a full CBI and non-CBI test report. Each report must stand alone and be unique.

**Subject:** 2.5 Series certification files and 1.7 Waiver request  
**Importance:** High

Hi Rafael,

I hope the shut down did not cause you much issues, it looked like a bad moment for government employees ...

This is a link to download 3 documents for the certification of the 2.5 Series wood heater (insert fireplace):

- Non-Cbi
- Appendix
- Report as uploaded on Intertek web service

Please let me know if you like the way of sending files, I'm trying something different.

**Other important point : We sent a certification waiver request on November 9<sup>th</sup>, 2018. I would appreciate to have feedback as soon as possible please. I will try to contact you later today or tomorrow.**

Thank you very much and have a good day Rafael,

**Guillaume Thibodeau-Fortin, Ing./Eng.**
